OUR COMPANY

PlanBee Architecture , PBA, established in 2008, provides comprehensive services in Architecture, Interior Design, Landscape and Project Management.

Our design methodology combines innovation, quality and teamwork.
We understand our Clients needs and tailor our designs to fit their requirements.

We offer consultancy in a pool of specialized services, delivering schematic designs, tender documents, execution drawings and site supervision.

We are a BIM Certified Team, ready to deliver full detailed BIM Models using Autodesk® Revit®. Our team assists Contractors deliver their EPC obligations and provides them with comprehensive engineering support.

PBA follows a structured work process for all projects starting from Design Validation, 2D Modeling, Coordination, Constructability Review Value Engineering, Prefab Shop/Sleeve/Spool Drawings, Quantity take-offs, and as-built drawings.

PBA expertise lies in 3D Modeling and Visualization, Clash Coordination, Bill of Materials (BOQ), Shop Drawings, Marketing BIM Presentation, Construction Documentation, 4D construction Simulation, GIS and Revit Family Creation.

Our 50+ staff comprises experienced and qualified professionals with experience in developing complex architectural BIM models, structural BIM models, MEP BIM models, shop drawings, BIM 4D models, and quantification.

PBA, a BIM company is based in Kharkov, Ukraine, with delivery centers in Ukraine and Lebanon.

Having in-house diversified expertise and quality standards, our cad and bim services offer merits such as low cost, quality, and on-time project delivery.

PROJECTS LOCATIONS

PBA stands as a highly accomplished global architecture firm.. It has successfully executed several Projects across Middle East, Europe and Africa.

OUR SERVICES

OUR EXPERTISE

As a multidisciplinary architecture firm, PBA have successfully executed several Architecture, Interior and Landscape Projects, dedicated to achieving a harmonious balance between Ideas, Beauty, and Functionality.
We specialize in Commercial, High Rise Towers, Resorts, Cultural, and Residential Projects.
We also have significant experience in Religious and Museum projects.

WHY PBA?

- Created in 2008, has earned a reputation for providing value to its clients through quality design and client-oriented vision in the gulf area and in the middle east.
 - Plan Bee Architecture's innovative approach incorporates sustainable design principles as well as value analysis at every phase of the process. We take the time to listen to our clients concerns and respond with appropriate solutions that meet rigorous functional demands.
 - Our design's core principles combine innovation, quality and team work.
 - Our architects and Interior designer work as part of the team to develop fully integrated solutions that are attractive whilst being practical and deliverable. We have a proven history of designing homes, schools, residential buildings, hotels, private villas and workplaces for a wide range of clients spanning from individuals to housing providers and private developers.
 - Plan Bee Architecture can also rely on partners who, on top of their 20-year architecture experience, have all earned MBAs and can fully understand client servicing, cost and financial requirements as well as project and people management.
 - Because quality, efficiency and cost effective delivery are equally important aspects of our work, we have built a specialist network of project managers, cost advisors, and consultation experts, who together with our design teams, can provide a comprehensive and well-round service to our clients.

OUR DESIGN SERVICES

OUR DESIGN SERVICES

Planbee Architecture is a multidisciplinary firm for Architecture, Planning and Interior design.

Our mission is to deliver exceptional design ideas and solutions for our clients through the creative blending of human need, environmental concerns, value creation, science and art.

The design solutions that we offer are a result of the collaborative efforts from our multidisciplinary team to research alternatives, share knowledge and imagine new ways to solve the challenges of the built environment.

Our comprehensive architectural services include:

- ❖ Conceptual and Schematic Design
- ❖ Design Development
- ❖ Construction Documentation
- ❖ Contract Administration
- ❖ BIM Modeling
- ❖ Shop Drawings
- ❖ Value Engineering
- ❖ Site Supervision
- ❖ Client Representation

OUR DESIGN & DESIGN DEVELOPMENT SERVICES IN INTERIOR

What are the Services Provided in Interior Design?

Interior design is much more than transforming a certain space with aesthetics. With a perfect blend of comfort and functionality, it optimizes user experience and appeals to emotion. Interior designers are trained to create and maximize space, and further up its value through color choices, sustainability features and more. The best interior designers take these all into account, and further improve on quality of life through detailed designs and decors.

Services Provided in Interior Design:

Interior design services carefully craft dream spaces for any project big or small, guiding you from start to finish.

- Client Consultation
- Floor and Space Planning
- 2D/3D Rendering
- Design Management
- Painting and Polishing
- Color Schemes and Lighting Plans
- Decoration, Restoration, and Installation

What does design development mean in interior design?

In design development, the schematic plans and elevations are reviewed, revised and expanded to incorporate all the details and specifications required for construction.

Project components are looked at to the smallest detail. These include:

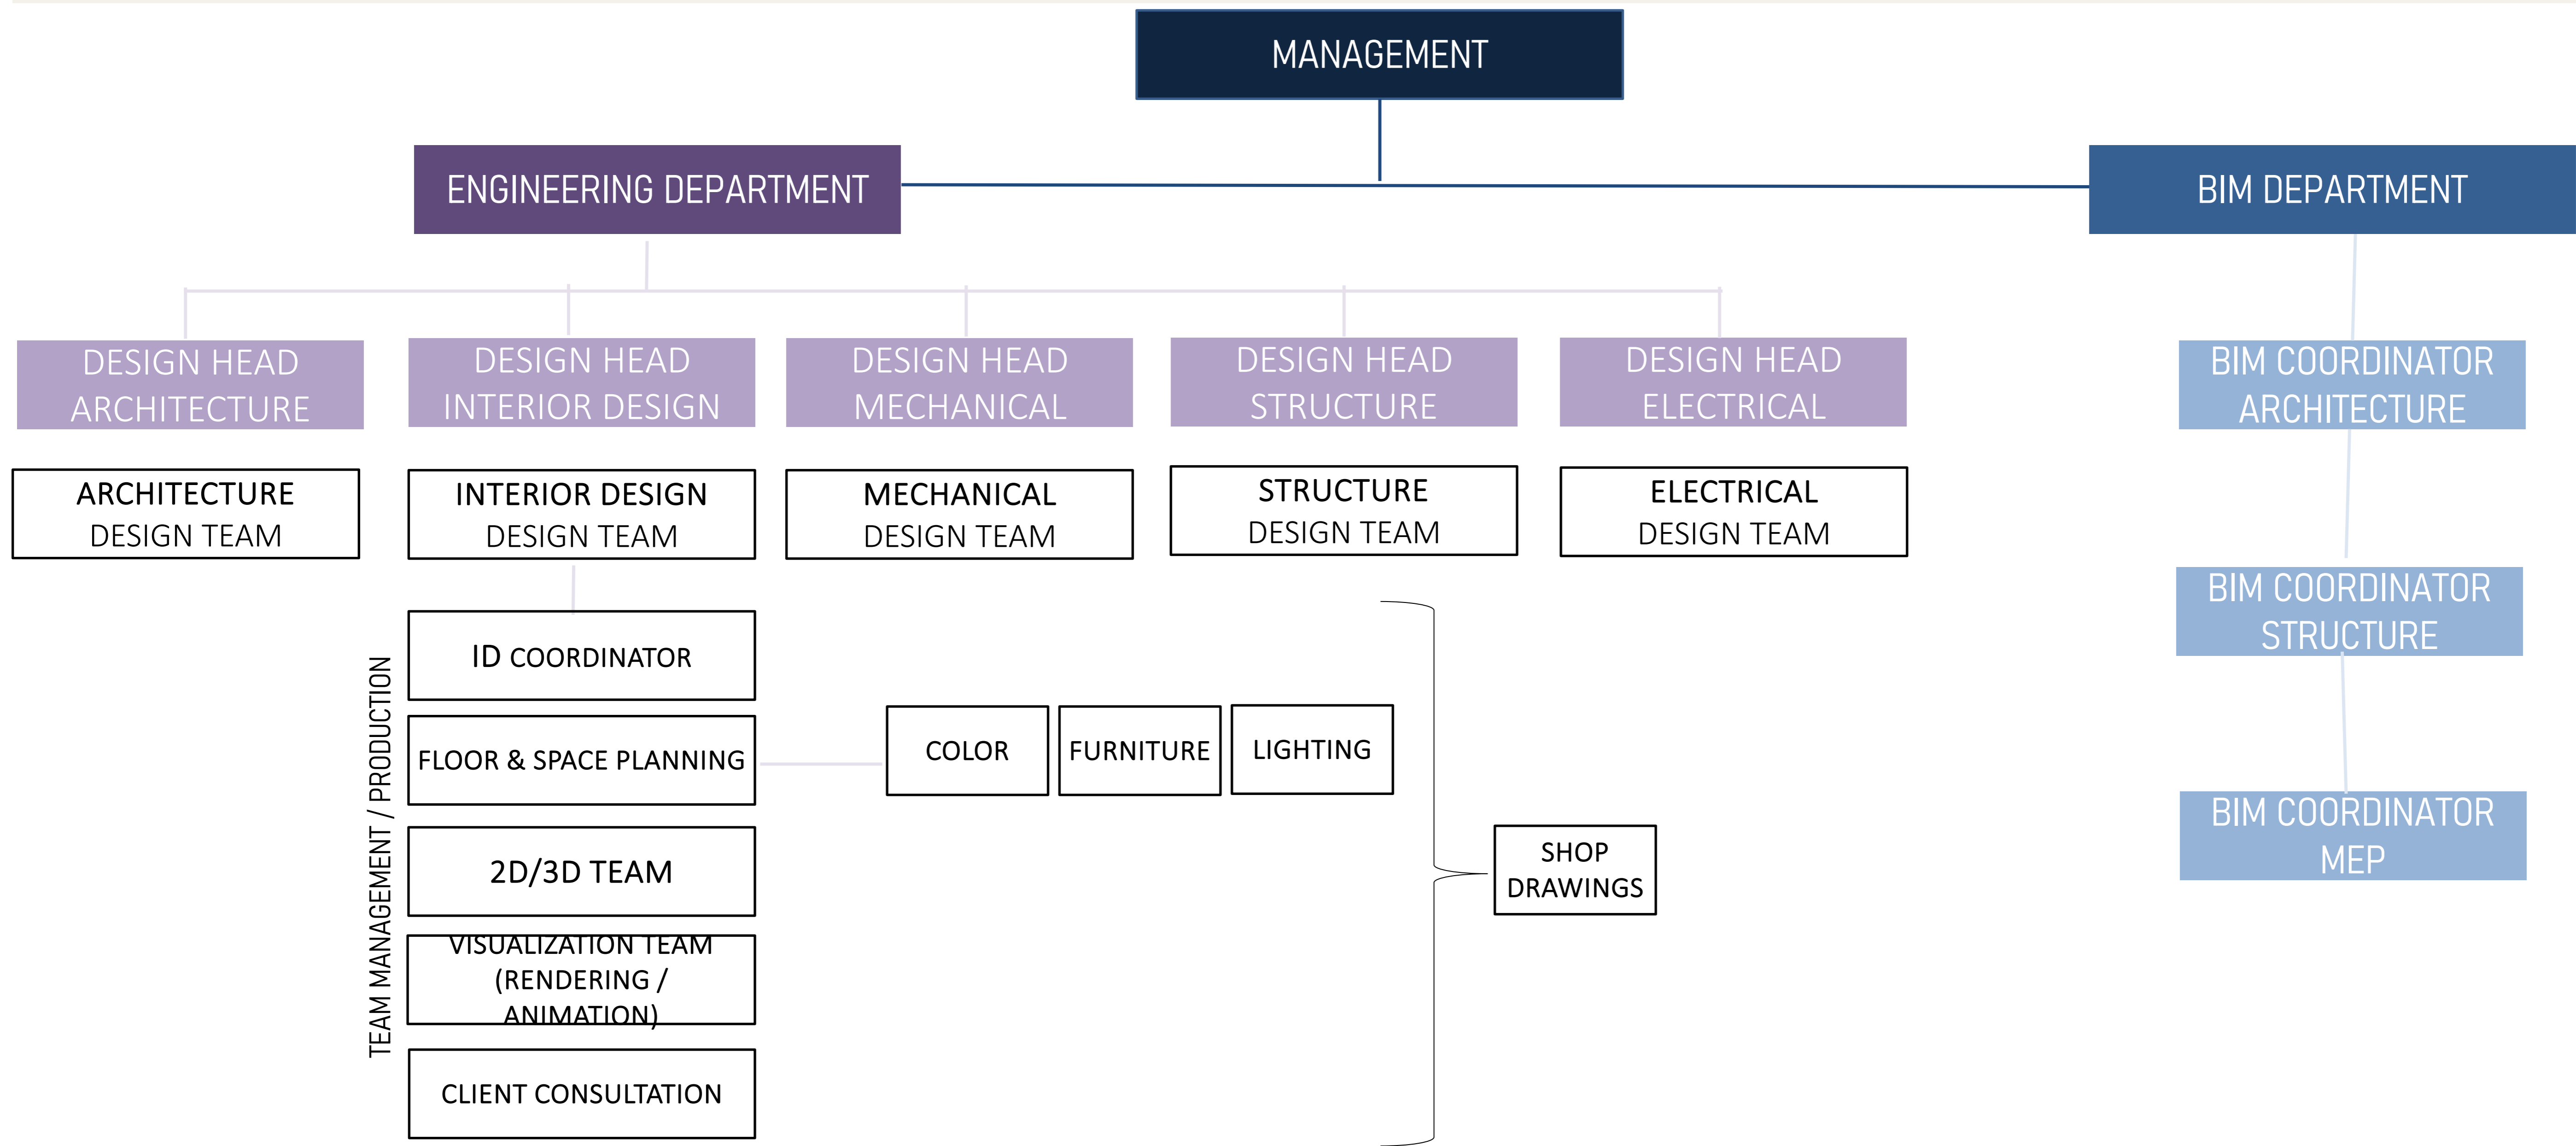

- Interior and exterior building materials and finishes
- Furniture and equipment selection and layouts.
- Cabinetry and custom fabrications.
- Lighting and technology designs.
- Mechanical, electrical and plumbing systems.

By the end of design development the design drawings and specifications are sufficiently complete to establish and define the facility's size, function, configuration and spaces, the operation or use of equipment and the materials for all the principal building structures and systems. With this information, the project budget and schedule and all building plans are finalized.

OUR TEAM & WORK PROCESS

OUR TEAM STRUCTURE

PBA contribution to Interior is made possible with the key players of the management team. We are poised to deliver the best engineering solutions to clients by nurturing and maintaining the highest level of innovation, commitment, productivity, and quality.

OUR EMPLOYEES BACKGROUND

ARCHITECTS → INTERIOR DESIGNERS → CIVIL ENGINEERS → MEP → LANDSCAPERS

OUR IT INFRASTRUCTURE

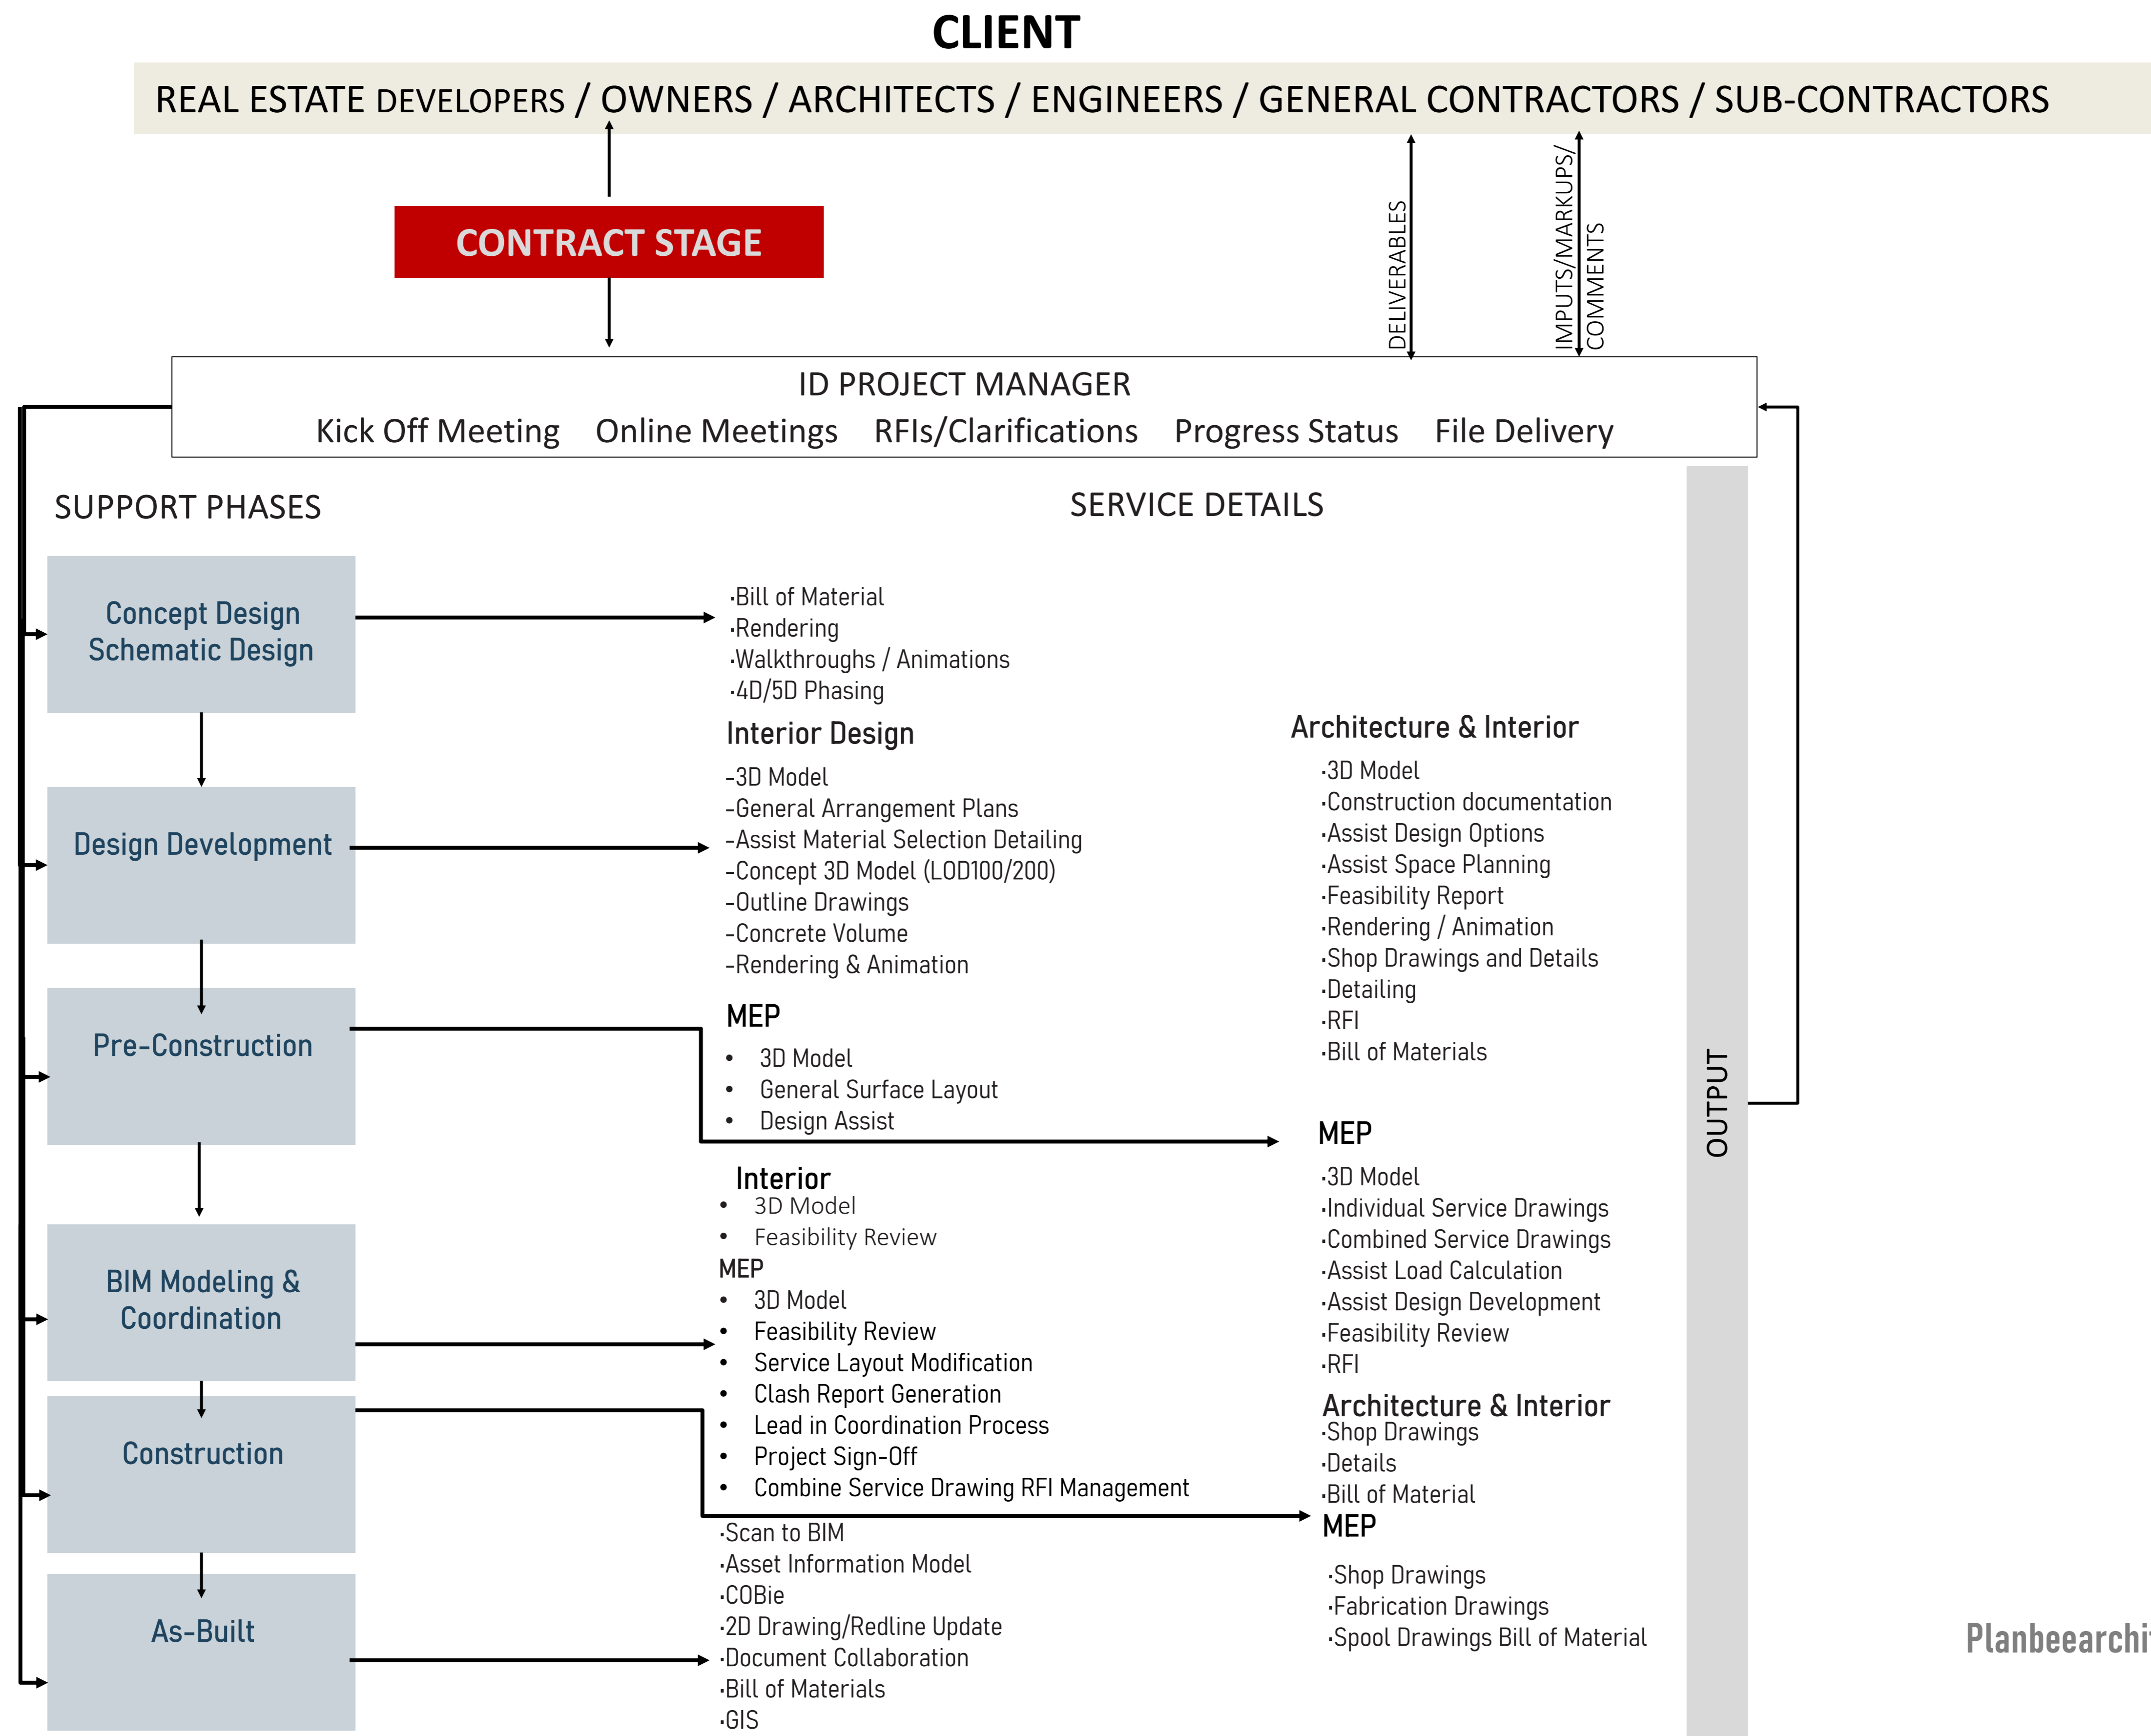

Network: Our workstations in Ukraine and Lebanon are equipped with the latest computer models and servers have proper back-up system.

Backups: Software updates are regularly applied to the workstations and the efficiency of the servers is kept in mind. Uninterrupted Internet Service and secure data and voice network ensure communication between employees and clients. Back-up generators provide power during emergency.

Softwares: PBA works on all major software applications: Revit – AutoCAD – Navisworks – 3DS Max – BIM 360 – etc...

OUR WORK PROCESS

THANK YOU ...
